

## Website Accessibility Report

- The accessibility of this website was tested on 17<sup>th</sup> September 2019 using a variety of methods
- The website 'wave.webaim' was used to check the colours and headings etc. This information has been passed to the website provider for alterations to be made.
- Google plug-ins was used and where possible alterations to the website have been made.
- It is clear that the website is not that easy to move around using just the keyboard but this is being looked into and will be amended should finances allow
- Tabbing through the website needs to be improved and the website provider has been asked to see if this can be altered.
